STaR Team Bulletin No. 16 – School Finance Data Processing for Kindergarten Students  
Thursday, April 16, 2007

The System Training and Response Team has recently published a document that explains changes in the procedures used by School Finance to process data for Kindergarten students. These changes were intended to be placed into service in time for the first ADM aggregation for FY2007, but were delayed until mid-April. The changes described in the document are expected to be noticeable in the results of data processing performed over the weekend of April 14 and 15 and displayed in the subsequently generated SDADMS75 and School Finance Student Counts reports.
